

Adobe Acrobat DC

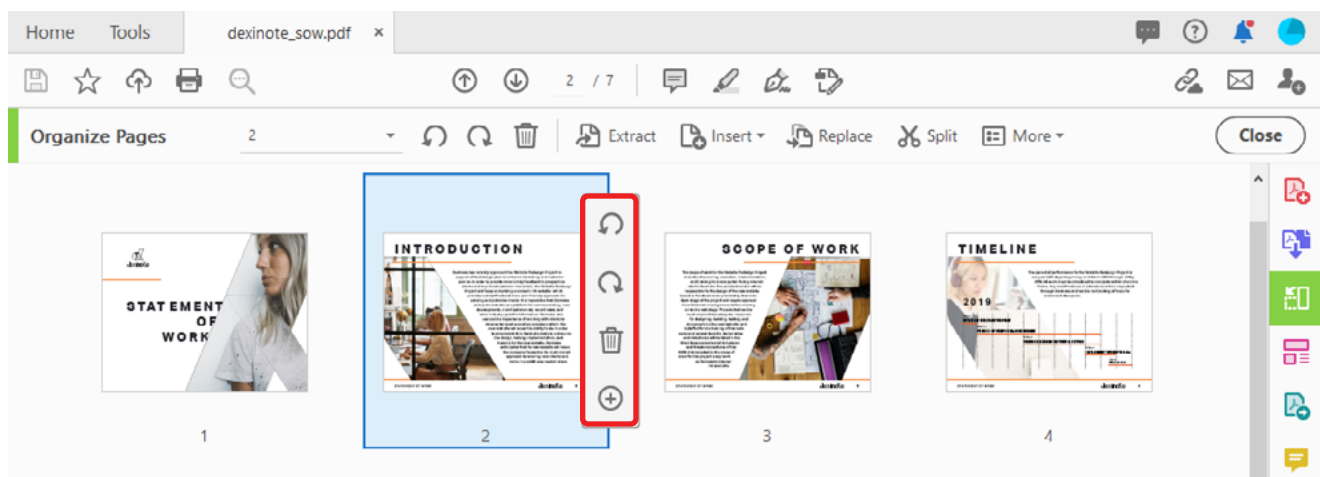

Organize Pages

Use Organize Pages in Acrobat DC to add, replace, extract, rotate, delete, and move pages in your PDF.

1. Select **Organize Pages** from the Tools center or right-hand pane.

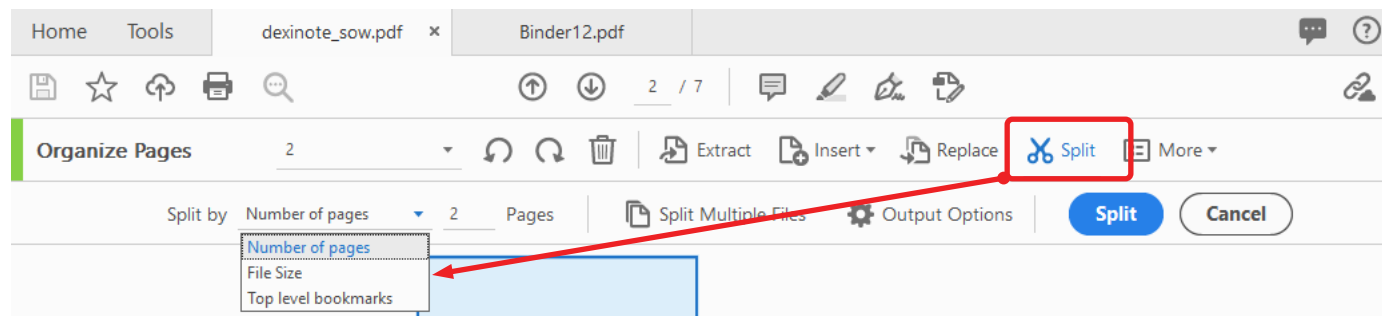

2. Hover over a page to rotate the page clockwise or counter-clockwise or delete the page. To move a page, select and drag the page to the new location.

3. Select **Extract** in the toolbar to create a PDF from one or more pages.
4. Select the page or pages, then select **Extract**.
You can also **Insert** or **Replace** pages, and see other options by selecting on **More**.

5. Select **Split** to break apart one or more PDFs into multiple smaller PDFs.
When splitting a PDF, you can specify the split by the number of pages, file size, or top-level bookmarks.
